EDUCATION

FPT University || Ha Noi, Viet Nam

May 2021 – 2024

B.S. Software Engineering

Relevant Coursework: Data Structures and Algorithms, Operating Systems, Machine Organization and Programming, Software Engineering, User Experience/User Interfaces, Object-Oriented Programming.

EXPERIENCE

FPT Software Academy Ha Noi: *Software Engineering Intern* 09/2023 – 12/2023

- Developed dynamic web applications using **Servlets, Bootstrap, and SQL** to improve database efficiency.
- Implemented responsive UI designs using **HTML, CSS, and Bootstrap**, enhancing user experience.
- Strengthened database management skills through hands-on work with **MySQL and SQL queries**.

PROJECTS

Project: Online Shoe Store Web Application: Developed a full-stack e-commerce application for online shoe sales using Spring Boot.

- Technologies: **Java, Spring Boot, Spring Security, Hibernate, JPA, MySQL, Thymeleaf, HTML, CSS, JavaScript**
- Built a full-stack e-commerce website with **search & pagination**, shopping cart, and secure checkout.
- Implemented **Spring Security** for authentication and **image upload functionality** for product management.
- Reduced database query time by **30%** using optimized **Hibernate/JPA** queries.

SKILLS

Technical Skills:

- Programming Languages: **Java (Spring Boot), C, C++, JavaScript, SQL**
- Frameworks & Tools: **Spring Security, Hibernate, JPA, Thymeleaf, Git, MySQL**
- Cloud & DevOps: **AWS, Google Cloud**
- Web Development: **WordPress, Shopify, HTML, CSS, Bootstrap**

Soft Skills:

- Problem-solving, critical thinking, teamwork, communication
- Time management, adaptability, ability to work under pressure
